RABIA VILLAS

“THEY USED TO SAY THAT AGRICULTURE HAS

NO FUTURE, BUT WITH GOD'S BLESSING

AND OUR DETERMINATION,

WE HAVE SUCCEEDED IN TRANSFORMING

THIS DESERT INTO A GREEN LAND.”

H.H SHEIKH ZAYED BIN SULTAN AL NAHYAN

ALJURF
—
THE PROJECT

Our landscape is ever changing, adding layer upon layer, building on the existing; merging, integrating, and weaving—to produce natural masterpieces of timeless beauty. Nestled along the Sahel Al Emarat Coast, AlJurf adds a new layer of beauty to the landscape. Integrating itself within the natural environment, AlJurf is a masterpiece that preserves and enhances the existing beauty, perpetuating a legacy, rather than changing it.

AlJurf will feature a range of facilities, including a world-renowned wellness clinic and retreat, unique residential communities and serviced residences, as well as a marina and a town centre encompassing a hotel and retail units. All these components will be carefully integrated within the natural landscape of AlJurf as to not disturb its harmonious beauty, but rather capitalise on it. Guests and residents will become the protectors of the ecosystem in the same way our ancestors were, while enjoying the simple luxury provided by this intricately woven work of nature and design.

Aljurf
GARDENS

THE COASTAL
RANCHES

OF ALJURF

Aljurf Gardens is where decades ago tens of thousands of trees were planted to create a green haven in the desert of Abu Dhabi.

Even the name has an aura—it is possible at once to lose and to find yourself among the trees and natural landscape, following a path that leads from the thoughtfully interwoven coastal ranches to the private and secluded beach.

Aljurf Gardens is a natural masterpiece; an intricate tapestry of 500 landscaped plots designed to seamlessly integrate within the natural, raw beauty of Aljurf.

Inspired by local culture, Aljurf Gardens tames the wilderness of its surroundings to introduce refined architectural patterns repeated in different motifs. It is reflective of nature's beauty across every typology of homes, gardens and courtyards.

A M E N I T I E S

PRIVATE ENTRANCE

Sanctuaries are a place of blissfulness, fulfilment, and soul enrichment. They are a haven where you feel safe and free to be yourself; to find inner peace.

Away from the bustling crowds and quick fast-paced city, with a private and gated entrance, lies AlJurf Gardens. Stepping through its gates, you'll find a simpler lifestyle. One that allows you to experience true authenticity with family and friends. All in a private and secure environment.

PRIVATE BEACH

Nestled between Abu Dhabi and Dubai lies the most pristine coastline in the Emirates—Sahel Al Emarat. A coastal getaway that captures the imagination, heritage and nature of the Emirates, while offering a timeless, universal appeal and charm that add to the feeling of escapism.

AlJurf Gardens boasts its own private beach and coastal shores stretching alongside the development's border, protecting its residents from the outside world.

PRIVATE MARINA

For generations, Abu Dhabi, with kilometres of pristine coastline and a plethora of natural islands, has been at one with the sea. It was home to fishing and pearling fleets and active boat yards. Emiratis still take to the seas in droves—but more recently in a more leisurely fashion.

Comfortably nestled on the shores of the beautiful coast of AlJurf, and just a short walk through the trees and lush greenery, lies the private marina; accessible exclusively to the residents of AlJurf Gardens.

COMMUNITY CENTRE

AlJurf Gardens has the community at its heart. It boasts a majlis, courtyard architecture, mosques and a community centre; offering a welcoming setting to come together.

AlJurf is a beautifully natural place, a framework for an authentic life. Key to this authenticity is a supportive community that provides a level of social life not found in the city.

R A B I A

V I L L A S

The Rabia Villa is a combination of old and new, rugged and refined. It is carefully designed to reflect and blend into the natural and raw beauty of its surrounding. It does so with a modern twist—the stone base of the building contrasts with the interior by reflecting refined, subtle contrasts.

FLOWING INTO THE FUTURE

The design carefully captures elements of the past and the future in two distinct layers. One resembles the aesthetic roots, history and the heritage at a ground-level enclosure. The design seamlessly integrates with the natural environment to create a playful platform, acting as a continuation of the masterplan tapestry. The second layer looks to the future by seeking an open and transparent vision – one that connects with the sea ahead and the horizon beyond.

An aerial photograph of a vast, flat landscape. The foreground is a large, uniform area of teal or turquoise color, possibly a wetland or a large field. In the distance, there is a thin, dark line of land or vegetation, and beyond that, a hazy, light-colored horizon. The sky is pale and overcast. The overall scene is serene and expansive.
